Quantum leap in the calibre of scientific, health and digital talent across the Swansea Bay City Region.

An **evolving** Life Science sector in Wales:

Global Network

## Our Talent Bank Vision

Our vision is to provide a broad and inclusive life, health and computer science curriculum, delivered in the context of the sector to the highest standards in partnership with our employer sponsors and partners.

Led by Gower College Swansea in collaboration with the Institute of Life Science at Swansea University and Abertawe Bro Morgannwg University Health Board, the Talent Bank is seeking employer partnerships to share in our vision of delivering a unique and innovative concept in further education - Science, Technology, Engineering and Math for our local 16-19 year olds.

We are seeking the assistance of key stakeholders such as employers and private industry together with representation from the NHS, Higher and Further Education, charitable organisations and local government to shape the learning experience ensuring the outputs are aligned to meet the needs of the dynamic and evolving sector.

This call to action will support us in our endeavour of helping young people to stand out and realise their full potential; equipping them with the right education, skills, attitudes, experience and understanding so that they can become the talented scientists, health professionals, technology entrepreneurs of the future!

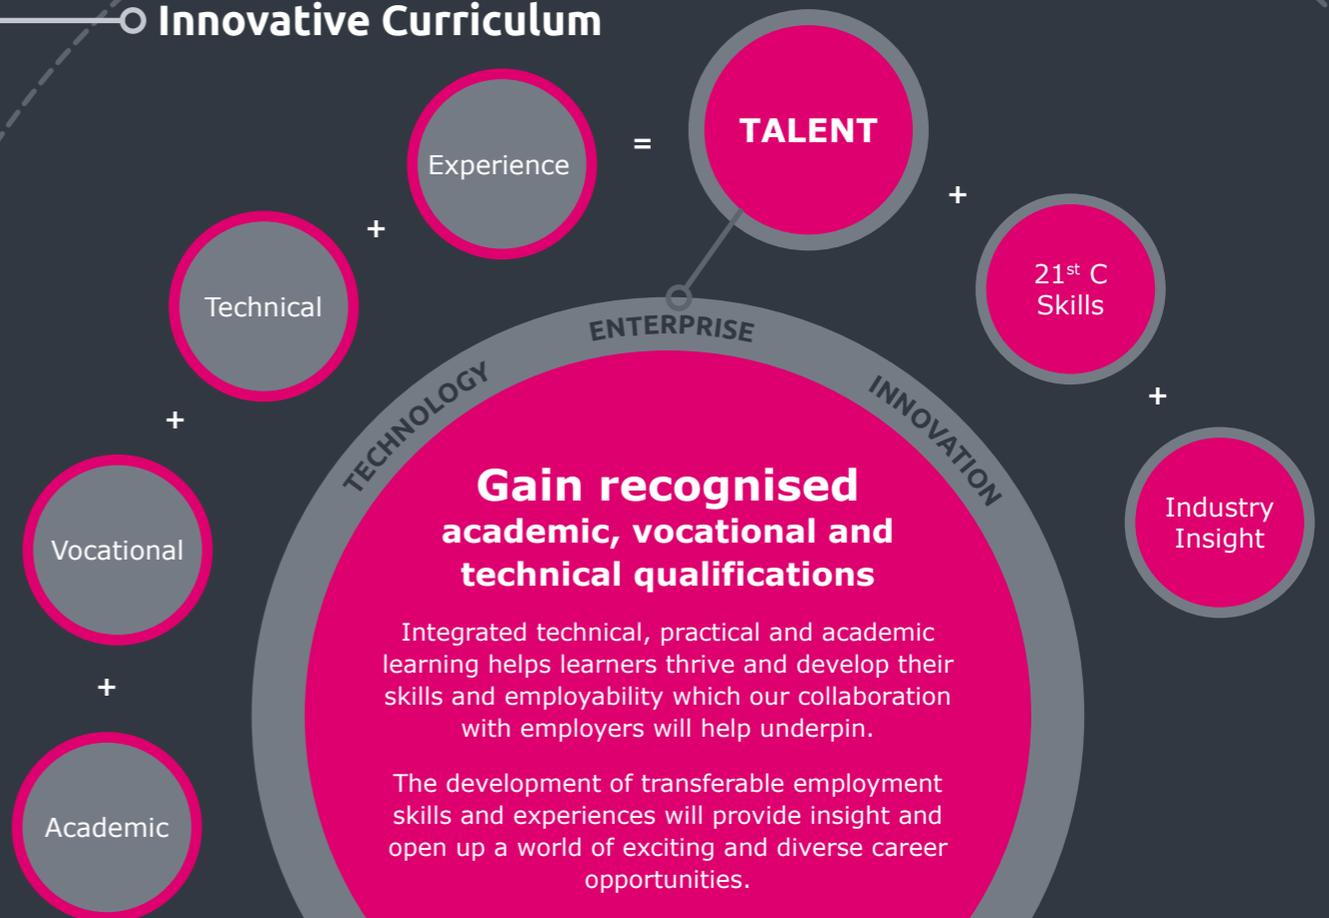

The first cohort of learners are expected to commence their studies in September 2016 at the state of the art centre and facilities located at Swansea University\*.

\*adjacent to Abertawe Bro Morgannwg University Health Board's Singleton Hospital.

### Innovative Curriculum

## The Employer

Employers are crucial to the success of the Talent Bank. We ask you to consider the role your organisation can play and with the knowledge that your input can make a transformational difference to the young people of our region equipping them for a better future whilst also supporting an enhanced life science and health wellbeing sector for Wales.

### As an employer you will benefit from:

- ✓ Opportunity to talent spot future employees from an indigenous talent pool and hence make savings in recruitment costs
- ✓ An effective way to meet your corporate social responsibilities within the community
- ✓ Opportunity to build the profile of your company to future talent
- ✓ Opportunity to strengthen your connections with academia and other companies
- ✓ Ensuring future talent are 'job ready' with the skills you need
